Dr. Shaffer expressed a deep appreciation to the people of the City of Torrance for use of the park facilities for their services and further expressed his gratitude "toward the fine spirit with which one of our local mortuaries extended their courtesy in offering the use of their beautiful chapel for church services."

This Sunday at 11 a.m. a special program will be dedicated to Mother's Day. Dr. Shaffer will speak on "Woman's Place in The Destiny of the World." He will use both a spiritual and psychological approach and will tell mothers that man has not fully appreciated their role and that they, themselves, have not fully understood their role, but that it is so important that it means the future of the world.

## Torrance Holds High Position In New Building

Torrance continues to hold a top position for building permit valuations from the Mexican Border north through Fresno County, according to Chamber of Commerce statistics.

Los Angeles continues to lead for the first quarter of 1960 with a total of more than \$166 million, compared to \$160 million for the corresponding period last year. San Diego follows with \$33 million, a drop of \$24 million from 1959 totals. Long Beach, with \$18 million (a rise of \$5 million) is the only other City to lead Torrance, which has amassed a total of over \$13 million through March, 1960. The 1959 figure locally was under \$5 million.

## Overpayment Claims Due On Disability

There may be a small "wind-fall" available to persons who worked for two or more employers in 1959, in the form of a refund for excess payroll deductions for disability insurance. Director of Employment Irving H. Perluss announced today.

If the total deductions from your pay check for payment of disability insurance premiums totaled more than \$36 during the year, then you are entitled to the excess, but you must make application for it on a form obtainable at any local office of the Department of Employment, and do so before June 30, 1960.

Under state law, an employer withholds from the pay of workers covered by the California Unemployment Insurance Code 1 per cent of the first \$3600 paid each worker.

This money is paid in by the employer to the state or by a voluntary insurance plan carrier to pay for temporary disability insurance coverage against non-occupational illness or injury.

Persons who work for two or more employers during the year may pay more than \$36 for disability insurance because each employer in turn withholds the statutory 1 per cent, as he is required to do by law. Any amount collected in excess of this will be refunded, but only if the worker applies for it.
